

About Planetary Plus

Planetary Plus is a sustainability and ESG advisory firm helping organisations translate ambition into credible, decision-ready action.

We work with organisations across manufacturing, energy, infrastructure, consumer goods, services, and technology to embed sustainability into strategy, operations, and disclosures.

Inspired by the concept of planetary boundaries, we recognise that businesses today operate under growing regulatory, financial, and stakeholder pressure. Our role is to help organisations respond with clarity, credibility, and impact.

We partner with leadership teams to integrate sustainability into core business decisions—aligning with global standards, regulatory expectations, and long-term resilience.

Why Planetary Plus

- Credible ESG, not cosmetic sustainability
- Science-aligned climate and carbon methodologies
- Decision-ready insights for boards and investors
- Practical roadmaps, not just reports
- Built for regulatory scrutiny and stakeholder trust
